

DiskGO!™ USB Flash Drive Plus Ink Pen Installation Guide

This Product is backed by a Limited Lifetime Warranty.
For complete warranty information visit www.edgetechcorp.com/register

Thank you for your purchase of the DiskGO!™ USB Flash Drive Plus Ink Pen by EDGE™! We hope you'll enjoy the convenience of an executive style ink pen with built-in USB storage capability. This product allows you to quickly and easily store and transfer data and is extremely portable. The perfect office tool for anyone on the GO!

Uses

1. USB Storage-Read/Write: The DiskGO! can be used as a portable storage device to read, write, and transfer or transport files.
2. Security: To password protect your files the application and manual is included on your DiskGO! (Windows users only).
3. An executive style ink pen for all of your important documents and notes.

System Requirements

- USB 1.1 or 2.0 interface ports running one of the following operating systems: Windows 98/98SE, Windows ME, Windows CE, Windows 2000/XP, Linux 2.4 or higher, MacOS 9.0 or higher.

Warning: Windows 98/98SE does not support the built in USB Mass Storage Driver. You will need to install the driver provided from our website (www.edgetechcorp.com/support/downloads). The driver is only for the Windows 98/98SE operating system.

Operating the DiskGO!™

Your DiskGO! USB Flash Drive Plus Ink Pen functions as a portable USB storage device and an executive style ink pen. Twist the bottom end where the finger grips are located to begin writing. The flash drive is housed in the top portion of the device. Unscrew the DiskGO! from the middle section to access the drive and simply plug it in to the USB port on your PC or Mac. No matter what operating system you are using, your computer will recognize the DiskGO! as if it were an additional hard disk or floppy drive. You can then copy, create and delete files on your DiskGO!

Windows users:

Access the DiskGO! by browsing through "My Computer". The DiskGO! will appear as a Removable Disk with a drive letter assigned, such as "Removable Disk (E:)".

Warning: If you are using the DiskGO! in a Novell Network environment, consult with your systems administrator to see if you have any mapped network drives. Mapped network drives can override the built-in drive lettering feature of Windows machines and can prevent your DiskGO! from being properly recognized by your system.

Macintosh users:

Access the DiskGO! by double-clicking the icon that appears on the desktop (usually called "No_Name").

Ink Replacement

To change the ink cartridge, pull the unit straight out at the bottom where the finger grips are located. Unscrew the small screw end cap from the ink cartridge and pull out. Remove the end cap from the old cartridge and replace it on the new cartridge (uses 2.5" standard ink refill).

Reverse this procedure to install the new cartridge.

IMPORTANT

PLEASE CONTACT A QUALIFIED TECHNICIAN FOR ASSISTANCE IN INSTALLING OR USING THIS PRODUCT IF YOU ARE NOT FAMILIAR WITH DOING SO. ANY INSTRUCTIONS INCLUDED WITH THE PRODUCT ARE FOR CONVENIENCE ONLY AND ARE NOT INTENDED TO BE ALL-INCLUSIVE.
