## HARDWARE INSTRUCTIONS

### Minimum System Requirements:

Available USB 2.0 port and one of the following operating systems:

- Windows 2000 SP4
- Windows XP

### Installing your DiskGO™ U3™ Flash Drive:

No additional driver installation is required. Plug your DiskGO U3 Flash Drive into an available USB 2.0 port.

### Removing your DiskGO Safely:

Please follow these directions to safely remove your device:  
Windows 2000/XP: Use the "Unplug or Eject Hardware" icon in the system tray to safely stop the DiskGO U3 Flash Drive. To avoid data loss, never unplug your DiskGO U3 Flash Drive while the LED is flashing.

### Notes:

If you are using the DiskGO U3 Flash Drive in a networked environment, consult your System Administrator to determine if you have any mapped network drives. These can override the built-in drive lettering features and prevent your DiskGO U3 Flash Drive from being properly recognized by your system.

## U3 SOFTWARE INSTRUCTIONS

For an overview of the U3 application, please refer to the U3 Welcome video located within the U3 Launchpad. For additional information visit: [www.u3.com](http://www.u3.com).

## INCLUDED SOFTWARE APPLICATION INSTRUCTIONS

For additional help using any of the included software applications, launch the application and visit the "Help" section.
